

The Scottish Micro-car Club

was formed in 1989 with the aim of bringing together enthusiasts north of the Border and helping to preserve, maintain and use all surviving micro-cars in a country where distance and sparse population means same marque enthusiasts cannot meet up easily.

Since then the Club has grown to have members throughout Britain and even overseas. We have a reputation for using our cars by organising day runs and camping weekends throughout the year; visiting places of interest, testing our cars on some of our more scenic and arduous roads but above all having good fun. We have also organised four Festival Rallies; these being week long, touring events in the Highlands and Border regions of Scotland and also the National Micro Car Rally in 2003.

The Club magazine '*Microscopic*' is issued up to six times a year and keeps members informed of news, events and restoration/maintenance tips plus a members only Facebook presence. Amongst our membership there is a wealth of knowledge and experience from individuals who have restored or run many different makes of micro-cars - a valuable resource for newcomers contemplating what may seem a daunting task.

Most of our members are interested in the post-war bubble-cars and mini-cars but we welcome owners of any three-wheelers, including kit-cars and the more recent replica vehicles – around 600cc.

Membership costs only **£8.00** per year. Membership runs from the 1st April to 31st March.

We hope that you will join us.
